40 Pin Jumpers Wires

| Male to Female - 40 Pin - 20cm	Female to Female - 40 Pin - 20cm	Male to Male - 40 Pin - 20cm

These premium jumper wires are good to wire harness or jumpering between headers on PCB's. These premium jumper wires are 8" (20cm) long and come in a strip of 40 wires (with 4 pieces of each of ten colors). They have 0.1" male header contacts on either end and fit cleanly next to each other on standard-pitch 0.1" (2.54mm) header. The wires come in a 40-pin ribbon cable which you can either keep them together to neatly organize, or pull the ribbon wires off to make individual jumpers.

For best results, when plugging these in a line, have the sides with the 'silver latch bit' sticking out since that side is a tiny bit wider than 0.1"

FEATURES

- Female connectors are good for microcontrollers, arduino boards and sensor boards
- Male connectors for breadboard
- 40 different wires with 4 pieces of each of 10 different rainbow colors
- Standard 0.1" (2.54mm) pitch
- Each wire is 28 AWG
- Types :
  - Premium Female to Female Jumper Wires - 40 x 8" (200mm)

    They have 0.1" male header contacts on either end, and fit cleanly next to each other on standard-pitch 0.1" (2.54mm) header.

- Premium Male to Male Jumper Wires - 40 x 8" (200mm)

  They have 0.1" male header contacts on either end and fit cleanly next to each other on standard-pitch 0.1" (2.54mm) header.

- Premium Male to Female Jumper Wires - 40 x 8" (200mm)

  They have 0.1" male header contacts on one end and female header on the other end, and fit cleanly next to each other on standard-pitch 0.1" (2.54mm) header.
