

DWIN SMART LCM SELECTION GUIDE

PROFESSIONAL, CREDITABLE, SUCCESSFUL

INTRODUCTION

Beijing Headquarter	2003
Hunan Base	2013
Hunan Base Area	250,000 m ²
Number of Employees	More than 1300
R&D and Sales	More than 700

WHY CHOOSE DWIN?

Overall Advantages

● Industry Experience

DWIN technologies was founded in 2003 at ZHONGGUANCUN, Beijing, Absolutely , DWIN has become the top supplier of LCMs in China. DWIN has set up regional marketing and application support in China as well as overseas countries such as Poland, Brazil and the United States.

● Research and development capability

DWIN Technology invests 30 percent of its profits in research and development each year, and owns hundreds of patents covering from ASIC architecture to application solutions.

● Manufacture ability

DWIN Technologies has built a manufacturing and service base whose total floor area 3is about 250,000 square meters Hunan. It covers the whole process production from glass cleaning, cutting, IC bonding, laminating and backlight assembly. The touch panel line with an capacity of 20K-30K piece per day.

Specific Advantages

● Stable supply and price

Establish long-term cooperation with the world's leading brands with direct supply.
(Note: standard model only, not applicable to customized service)

● Short delivery time

Shorten greatly the delivery time because of the mature industrial chain. E.g. some basic components are manufactured through cooperation with leading supplier in the park.

INTEGRATED SERVICE

Hunan Base has a science and technology park with a total construction area of 250,000 square meters, also DWIN has set up an LCD production line, CTP production line, RTP production line, glass cover production line, and OCA full bonding production line, SMT production line, injection line, assembly line, and material aging testing workshop, and development laboratory, etc. In addition, some core is supporting supplier directly on-site cooperation.

In Beijing, Guangzhou, Shenzhen, Suzhou, Hangzhou, Changsha, as well as South Korea, Poland, Brazil, the United States, and other countries and regions set up regional service stronghold, service tentacles all over the world.

About 300 people in customer service and after-sales team, one-to-one customer service, ensure that customers from the beginning of the purchase to the final problem solving, one-stop service.

*More than 50,000 customers worldwide
are using DWIN Technology's products*

DWIN PRODUCT NAMING RULE

Take **DMG80480T070_15W** as An Example

Instruction	Product line code	Length	DWIN smart LCM product line
G	Color Code	1 Character	T=65K Color(16 bit) G=16.7M/262K Color(24bit/18bit)
80480	Resolution	5 Digits	24240=240*240 32240=320*240 48270=480*272 64360=640*360 64480=640*480 80480=800*480 85480=854*480 80600=800*600 10600=1024*600 10768=1024*768 12720=1280*720 12800=1280*800 13768=1364*768 or 1366*768 19108=1920*1080
T	Classification	1 Character	Y=Medical&Health Grade M/L=Consumer Grade C=Commerce Grade T=Industrial Grade K=Medical Grade Q=Automotive Grade S=Harsh Environment application F=COF

-	-	-	Separator
1	Attribute Code	1 Digit or Character	0=Basic type 1=Basic type with a shell 2=Simulate video processing platform products 3=Android and Linux platform products 4=Digital video processing platform products A=DGUSII kernel product
5	Hardware ID	1 Digit	0-9 to distinguish between different hardware versions
W	LCD Temperature Grade	1 Character	N=Normal Temperature W=Wide Temperature
-	TP Category	1 or 2 Character	N=Without Touch Panel T=Touch Panel TR=Resistance Touch Panel TC=Capacitive Touch Panel
-	Custom Tag.	Z+ Number	Z01-Z99, Z**=ODM Product, **means 01-99, standard is blank
-	Extended Memory Mark	F+ Number	F0=512MB F1=1GB F2=2GB F3=3GB, standard is blank

Type	Abbreviation	Description
Shell	PS1	The plastic shell suitable for indoor use, it may be deformed due to excessive temperature or UV degradation damage when used outdoors.
	PS2	The plastic shell suitable for indoor and outdoor use, undeformed at high or low temperatures, and has UV protection.
	MS1	The embedded smart screen wrapped in a stainless steel iron frame has a structure similar to a bare screen.
	MS2	The aluminum alloy shell, suitable for both indoor and outdoor environments.
Display	TN	Normal viewing angle TN process TFT display, the viewing angle is 70/70/50/70 (L/R/U/D).
	EWTN	Wide viewing angle TN process TFT display, the viewing angle is 75/75/75/75 (L/R/U/D).
	IPS	IPS process TFT display, commonly known as hard screen, has high contrast, good color reproduction, and wide viewing angle (typical value is 85/85/85/85).
	SFT	SFT process TFT display, with high contrast, good color reproduction, wide viewing angle (typical value is 85/85/85/85).
	OLED	The OLED display has the advantages of high contrast, high color reproduction, full viewing angle, high-speed display without smearing, etc. The disadvantages are high price, short life, and poor reliability.
Touch	R4	4-wire RTP
	R4AV	4-wire RTP with anti-glare and anti-UV, it suitable for outdoor use.
	CP	G+P low-cost CTP
	CG	G+G CTP, it can adjust the sensitivity of the front tempered glass or acrylic panel.
	CGAV	G+G CTP with anti-glare and anti-UV, suitable for outdoor use. The sensitivity can be adjusted with front tempered glass or acrylic panel.
RTC	BT	Use CR3220 or CR1220 lithium electronic battery as RTC backup power source, the battery needs to be replaced after the battery life is 1-5 years (depending on the battery and the use environment).
	FC	Using farad capacitors as RTC backup power supply, it can last for about 30 days after power failure, and there is no service life problem.
Storage	4M	The size of the built-in Nor Flash memory of the smart screen is 32Mbits (4Mbytes).
	8M	The size of the built-in Nor Flash memory of the smart screen is 64Mbits (8Mbytes).
	16M	The size of the built-in Nor Flash memory of the smart screen is 128Mbits (16Mbytes).
	1G	The size of the built-in Nor Flash memory of the smart screen is 1Gbits (128Mbytes).
	2G	The size of the built-in Nor Flash memory of the smart screen is 2Gbits (256Mbytes).
	4G	The size of the built-in Nor Flash memory of the smart screen is 4Gbits (512Mbytes).
	8G	The size of the built-in Nor Flash memory of the smart screen is 8Gbits (1Gbytes).
	16G	The size of the built-in Nor Flash memory of the smart screen is 16Gbits (2Gbytes).

Type	Abbreviation	Description
Brightness	A	Suffix A (for example, the selection mark is 500A) indicates that the maximum brightness of the backlight can be automatically adjusted with the change of the ambient brightness, which is mainly used for high-brightness products.
Interface	TTL	3.3V-5V level compatible with TTL/CMOS full-duplex UART interface, the highest rate is 16Mbps.
	232	A full-duplex UART interface that meets EIA232-F level specifications, 15KV ESD interface protection, and a maximum rate of 250kbps.
	TTL/232	3.3V-5V level compatible with TTL/CMOS/RS232 full-duplex UART interface, TTL (in-phase) or 232 (reverse) mode can be selected for each line, the maximum rate is 16Mbps.
	485	A half-duplex UART interface that meets EIA485-A level specifications, 15KV ESD interface protection, and a maximum rate of 10Mbps.
	232/485	Two level interfaces from a serial port, the inside line is together.
Development mode	TA	DWIN serial port instruction set UI development mode, typical operating platforms include M100/M600/K600/H600/K600+/T5UIC2, among which the L series supports high-quality music playback.
	TC	Condensed version of DWIN instruction set development mode (T5UIC1/C4) composed of a single T5 CPU.
	DGUS	DGUS UI development mode based on K600+ kernel, UI refresh cycle 200ms, support non-real-time DWIN OS.
	DGUSM	The simplified version of DGUS (Mini DGUS) UI development mode running on the ARM platform supports some functions of DWIN OS and is no longer recommended for new users.
	DGUSL	The high score simplified version of DGUS UI development mode running on T5 CPU does not support DWIN OS (T5UIC3 platform).
	DGUS II	DGUS UI development model based on DWIN T5L CPU, UI refresh cycle 40-60ms, high-quality music playback, DWIN OS real-time operation, typical platforms include T5UID1/D2/D3/D4.
Socket	10P10F	10Pin 1.0mm pitch FCC interface, convenient for mass production
	40P05F	40Pin 0.5mm pitch FCC interface
	6P25P	6Pin 2.54mm pitch straight plug socket
	8P25P	8Pin 2.51mm pitch straight plug socket
	8P20P	8Pin 2.0mm pitch patch socket
	6P38P	6Pin 3.81mm pitch phoenix terminal socket
	8P38P	8Pin 3.81mm pitch phoenix terminal socket
	10P51P	10Pin 5.08mm pitch terminal block

- The thermostat refers to the 220V power supply on the back panel, with three relays and one normally open normally closed relay, which can be directly used for the fan coil thermostat.
- The fresh air controller means that the backplane is 220v power supply, with three relays and two PWM interfaces, which can directly control three-speed AC fans and EC fans.

2.8	TR028C12 U/W 00	Wire Controller	320*240	6-36V	485 4pin_2.54	TN	Self-contained installation
3.5	TC035C12 U/W 00		320*240	6-36V	485 4pin_5.08	IPS	Standard 86 shell
	TC035C22 U/W 00		480*320	5-15V	485 4pin_2.54	TN	Self-contained installation
	TC043C12 U/W 00		480*272	6-36V	485 4pin_2.54	TN	Standard 86 shell
4.0	TC040C12 U/W 00		480*480	6-36V	485 4pin_2.54	IPS	Standard 86 shell
4.0	TC070C12 U/W 00		1024*600	6-36V	485 4pin_5.08	IPS	Standard 86 shell

- For these three wire controllers, TR028C12U00, TC035C22U00, TC040C12U00, the power supply box is eliminated in structure, and the overall structure is thin, can be directly installed with the built-in mounting plate.
- The wire controller refers to a wall-mounted panel that only supports 485 communication in function, and the power supply is DC power supply. Note that the installation method is divided into two methods: standard 86 shell and self-contained installation.

OVERALL UNIT SOLUTIONS

I HIGH-SPEED BLENDER

T5L0+800*480 4.3 inch IPS LCD+integrated capacitive touch screen

T5L1+ 854*480 5.0 inch IPS LCD+integrated capacitive touch screen

T5L0+480*272 4.3 inch TN LCD+resistive touch screen

Based on DWIN T5L ASIC, through the OS core integrated the high-speed blender control-related algorithms, T5L chip makes the product use smoother, more efficient, more convenient and smarter to operate.

Advantages

- 1.High-quality music playback and voice prompts.
- 2.DWIN's patented series motor drive technology.
- 3.Intelligent temperature control algorithm.
4. Provide user PC development software platform, customer can develop a variety of recipes.

THERMOSTAT

T5L0+480*320 3.5 inch+IPS/TN LCD+integrated capacitive touch screen+shell

T5L1+702*720 4.1 inch + INCELL+integrated capacitive touch screen + shell

T5L1+1024*600 7.0 inch+IPS LCD+integrated capacitive touch screen + shell

T5L2+1920*480 8.8 inch+IPSLCD+ntegrated capacitive touch screen + shell

Based on DWIN T5L ASIC, provide accurate temperature measurement algorithm, accurate measurement of 0.5 degrees Celsius. It has rich peripheral interfaces, which can rapidly expand various AIOT application functions

Advantages

1. Provide innovative and efficient intelligent IoT solutions - DWIN Cloud Platform, which can help users to better remote control and data management.
2. Connect to the intelligent voice assistant platform, which can quickly realize intelligent voice control.
3. Users can generate management back-end based on DWIN Cloud platform and self-generate H5 pages with DWIN Cloud APP architecture to focus on core cloud business development more efficiently.

LAN SOLUTION

The LAN solution of DWIN Technology can realize intercom function. It has the characteristics of high bandwidth, simple development, high integration, low cost and simple application and construction. It has been applied in medical care system, electronic table card and clock system.

1. Medical Care System

T5L0+480*480 4.0 inch IPS LCD+ integrated capacitive touch screen

T5L1+854*480 5.0 inch IPS LCD+ integrated capacitive touch screen

T5L2+1024*600 7.0 inch IPS LCD+ integrated capacitive touch screen

T5L2+1280*600 10.1 inch IPS LCD+ integrated capacitive touch screen

Based on the excellent howling suppression capability of high-speed computing T5L, it supports high-quality host broadcasting.

Remote upgrade and real-time data information, single host supports up to 256 terminals, high operating efficiency.

Advantages

1. High-quality full-duplex voice intercom.
2. Double MIC, double speaker, software selection switch, simplify the design of the handle and external placement.
3. Support high-quality host broadcast to realize background music playback and TTS signal.
4. Files and terminal device applications can be upgraded online.
5. Based on a cheap twisted-pair network, simple and easy.

2. Electronic Table Card

Electronic table card is a smart color screen conference system solution developed by DWIN for modern conference, which integrates a variety of meeting functions, has a high degree of informationization, and enables paperless meetings, which can be used repeatedly.

Advantages

1. Integrate multiple functions of sign-in, voting, and call services in one.
2. Local area network method ensures the safety of meeting materials.
3. System management software for users to use directly and for easy management.

SMART SCREEN SOLUTIONS

3D Printer

Simple development

TPage sliding, zone rolling, audio playback, keyboard input

Cost advantage

- T5 and T5L chips designed by DWIN make the cost of the core drive extremely well controlled.
- The integration advantage of the whole industry chain can provide LCD screens with a double guarantee of controllable quality and stable supply.

3.5-inch 480*320 TN screen + Capacitive touch panel

Card Reader

- T5 and T5L chips designed by DWIN makes the cost of core drive extremely well controlled.
- The whole industry chain integration advantage, can provide controllable quality, stable supply of LCD screen dual guarantee.
- The PCBA core driver board with T5L ASIC makes screen development easy.

4.3-inch 480*272 TN screen + Touch panel

4.3-inch 800*480 IPS screen + Capacitive touch panel

I SELF-SERVICE CAR WASHING MACHINE

- The DWIN smart screen updates the QR code based on real-time data to facilitate charging.
- The whole video/voice operation guide makes car washing easier.
- Connect to the cloud platform, remote background management, real-time view of business data. At the same time, you can check whether the machine is short of water, foam liquid is insufficient, and the machine is offline.

7-inch 1024*600 IPS + Touch panel
